

Guillermo Lopez

SUMMARY

I offer a unique blend of high emotional intelligence, loyalty, and a keen understanding of business dynamics – qualities well-suited for an engineering manager or team lead role. This combination allows me to navigate team interactions effectively, fostering positive collaborations and clear communication.

I consistently go the extra mile to contribute to organizational growth, building a foundation of trust and reliability. Thanks to diverse professional experiences I possess a comprehensive understanding of both technical and business aspects, allowing me to strategically contribute towards engineering goals.

EDUCATION

Computer Science

Wroclaw University of Science and Technology

Computer Science

Polytechnic University of Valencia

4 years degree. Major in Internet Technologies

PROFESSIONAL EXPERIENCE

Engineering Manager

thirty3 · Warsaw, Poland

now

apr. 2022

I fostered a supportive team environment through personalized 1:1 sessions, emphasizing individual career development and mentorship. My responsibilities included the recruitment and retention of top-tier talent, precise project estimation, budgeting, and efficient capacity planning for a team of 15+.

Senior Full-Stack Developer

Nexum AG · Germany, Remote

mar. 2022

feb. 2021

My role involved architecting tailored solutions and modernization of existing systems for prominent international customers. As additional responsibilities, I actively participated in talent acquisition and retention efforts, precise project estimation, budgeting and providing mentorship and guidance to different teams of up to 5 engineers.

Graduated with honors from:

- Application Integration
- User Centered Design

Chief Technology Officer jan. 2021
Waup Agency · Remote feb. 2019

I guided the company through a successful shift from a traditional office setup to a remote working model, growing from 4 to 12 employees. Additionally, I expanded our service offerings to include Web and App development, strategically diversifying our capabilities and contributing to the agency's overall success.

Full-Stack Developer & PM sep. 2018
Bloo Media · Valencia, Spain jun. 2015

My core responsibilities, as both a Full-Stack Developer and Project Manager, included architecting and implementing tailored solutions for customers, while facilitating collaboration between departments to ensure the smooth delivery of successful projects. Alongside these responsibilities, I also actively participated in recruiting and mentoring top talent and nurturing relationships with stakeholders.

Freelancing jan. 2021
Freelancing · Remote jan. 2012

I've delivered numerous projects over the years, ranging from corporate websites to e-commerce platforms and web apps, catering to a diverse set of international clients. In addition to my solo work, I proactively built a network of fellow freelancers, fostering collaboration on various projects. This collective effort not only enriched the quality of our deliverables but also allowed us to offer comprehensive solutions tailored to the unique needs of our clients.
